PREFACE

During the early 1920s, there was an endowment to "read" the cemeteries of the Western Reserve. Over a period of five or six years, Geauga County, Lake County, Portage County, and at least part of Cuyahoga County were covered, and probably other counties were completed as well. This work was done by Edith Holton Sherman and Grace Price Rawson. The volumes were not published; the work was in typescript. Only a few copies were available.

In order for a community or township to qualify as a Bicentennial Community, a committee was required to submit certain types of projects. Claridon Township qualified by selecting: a. updating the cemetery records; b. compiling a history of The First Congregational Church of Claridon, established in 1827; and c. erecting a flagpole in the township park and dedicating it with appropriate services.

Since the church and cemetery were so closely related, these two projects dovetailed. The compilation of the inscriptions and interments from the Sexton's records along with family information made a 200-page typescript for the four Claridon cemeteries.

The next township to receive a similar treatment was Huntsburg. In both instances, the 1925-1930 work was invaluable in identifying illegible monuments. Also, many stones had disappeared by 1976. Both townships were updated and retyped in 1980.

From 1980 through October 1983, the remaining townships of Auburn, Bainbridge, Burton, Chardon, Chester, Hambden, Middlefield, Montville, Munson, Newbury, Parkman, Russell, Thompson, and Troy were completed. The clerk and/or sexton of the townships were most cooperative in supplying what they could of their records. There were almost as many systems of record keeping as there were townships.

Available at the County Engineer's office were Official Government Maps, almost one hundred. These maps were lay-outs of the cemeteries, and the graves of veterans from the Revolution through World War I were marked. They were extremely helpful in designating lot numbers. Most lot markers are difficult if not impossible to find.

By the end of October 1983, there were sixteen spiral-bound booklets and sixteen three-ring notebooks, one each (a duplicate) for each township. Each was indexed, and the total number of pages was 1655. During the early part of 1984, each township was revisited. The information from the burial permits amassed since the first visit to the end of 1983 was assembled into Volume 17.

There were now over 1700 pages and seventeen different indexes to check for a name. However, the 4x6 cards used for recording the inscriptions and interments were available, over 30,000. Each burial was identified as to township, cemetery, section, and lot.

A decision was made to make the information available in one volume with one index, and A MONUMENTAL WORK was born. A system of abbreviations reduced the number of pages of text to 628. Stones that didn't provide information were not listed, such as FATHER as a separate stone. The relationship was added, in parentheses, to another monument. Much information appears in the volume that is not part of the inscription, i.e., maiden names, full dates (where they could be found). All such is in parentheses. There are many burials where there is no stone. These were included as well as much other information compiled from obituaries, family histories, probate records, etc.

There was an effort to consider the personal visit of a researcher. Not all cemeteries are consistent in their numbering pattern of lots. In fact, some defy description. Maps are included, and by knowing the section and lot, it should be a simple matter to locate a particular stone.

Stones were located in a greenhouse, on a golf course, and in the basements

of homes. There are two unmarked graves in a pasture in Huntsburg Township. Even these were included

The original volumes are located at the home of Violet Warren, 15883 Kenwood, Middlefield, OH 44062. The 4x6 cards are also located there. The spiral bound volumes are located at the Geauga County Public Library, Main Branch, Chardon, OH 44062. These contain much more detailed information as in the case of Burton and Chardon. Both had interment ledgers, and these were copied and included. The ledger was begun in 1908 for Burton and in 1943 for Chardon. With the exception of Parkman, each township has a copy of its particular volume. The mailing addresses as of May 1985 are as follows:

Location: on the east side of Rt. 306, about 0.7 mile south of the intersection of Rts. 306 and 422. There are two posts with a chain blocking the drive. The cemetery is well-maintained, but there have not been any burials for many years. The only records are maps and the 1925 reading.

BAINBRIDGE - HENRY

Location: on the east side of Brewster Road. It was a small plot set off from property now owned by Graden JOHNSON 18939 Brewster Rd., Aurora P.O., OH 44202. Mr. Johnson had done considerable work in locating stones, cutting out brush, and restoring the fence around the plot. A wind storm undid his efforts. He has also deeded land to extend the cemetery to frontage on Brewster Road, although it is unlikely that it will ever be used.

16697 SNYDER ROAD

Location: on the property of Charles MORAVEC on the east side of Snyder Road between Bell Street amd U.S. 422. They are about 20' north of the residence of Joseph HORVATH.

s CHAMBERLIN, Henry G. s/o J.B.& P. d. Aug 1851

s CHAMBERLIN, Bemis ? b. Colchester, CT d. 1 Mar 1846 ae 83

There are a few stones including one marked Lydia B., but they give no further information. According to the 1880 Hist., Benjamin, John, Joseph CHAMBERlin, and their mother, perhaps Bemis, along with Benjamin's wife's parents came together. Benjamin removed to Auburn. Joseph and Louisa (BROWN) CHAMBERLIN are buried at Evergreen in Chagrin Falls.

* * * * * * * * * * *

Former location: at the northeast corner of the intersection of Snyder Road

and U.S. 422 was the farm of Porter D. MC CONOUGHEY. There was a private burial plot, but the stones were moved to Evergreen Cemetery in Chagrin Falls, Sec. 23, Lot 18, about 1926.

Former location: on the southwest corner of the intersection of Chagrin and Catsden Roads was the VINCENT Burial Ground. Apparently by 1925, these stones had been moved to the northwest corner of Restland, Section 6.

Shadrack VINCENT and sons Chauncey and Jonathan came to Bainbridge in May 1833. Shadrack d. Oct 1833. Nicholas VINCENT (prob also s/o Shadrack) came in Feb 1834. Jonathan's wife, Sally, d. Jul 1833. Jonathan moved to Chagrin Falls in 1863 and is probably buried there. Perhaps his wife and father were moved there when the other stones were moved.

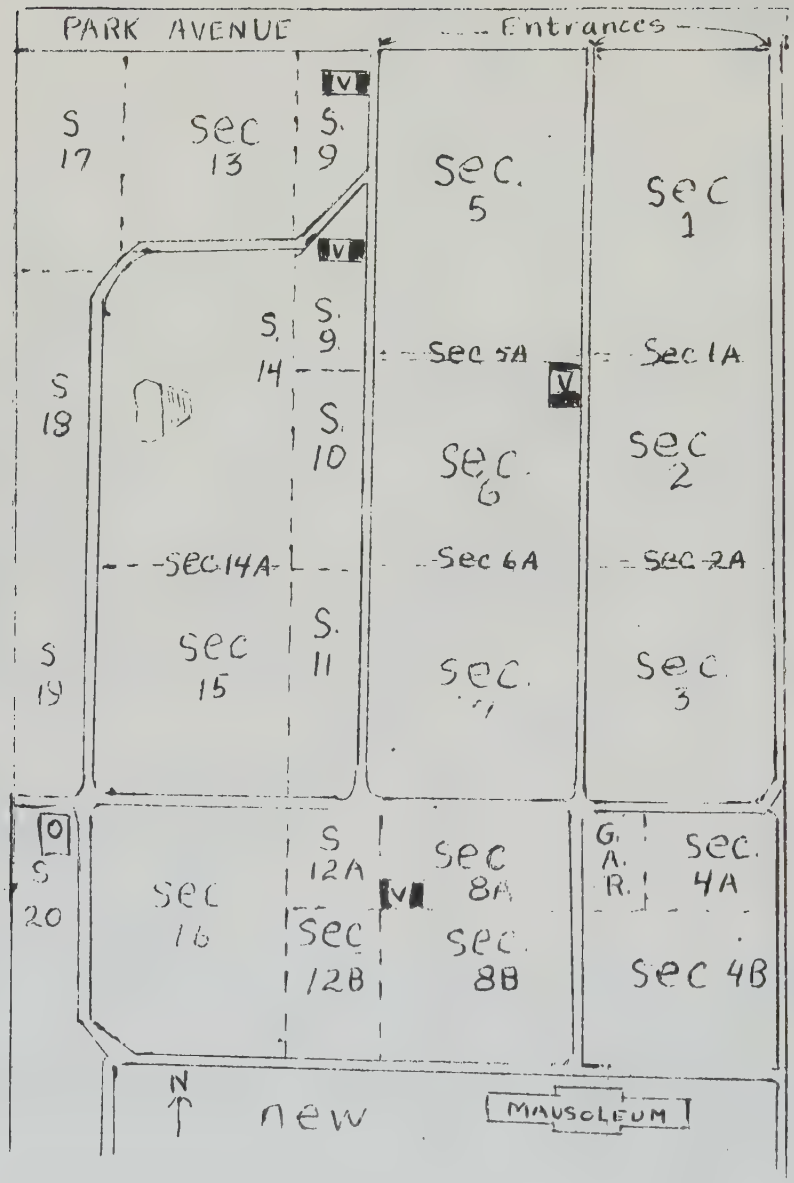
CHARDON VILLAGE



CHARDON - VILLAGE

Location: on the south side of Park Avenue, the first street to the west south of the village. South Street in the village is the same as Rt. 44. The administration of the cemetery is handled by the village officials.

The records consist of a Cemetery Interment Record and a card file. These are located in the office on the cemetery property. The Cemetery Interment Record is filled in from the burial permits; the location of burial is not noted. For the past several years, the burial permit has been stapled to the appropriate card. There are many errors and omissions in the card file.

In the following, those names appearing after the lot number are those which not do not have a matching stone or other record. Generally the date appearing after the year of death are interment dates from 1943 (the year the CIR was begun) on. A date before 1943 is usually the date of death. There are many exceptions, however. Since the numbering is unusual, a map has been included for the older sections.

CHARDON - LARNED
CHARDON TOWNSHIP TRUSTEES

Location: about 3 miles northwest of Chardon Village on Mentor Road, also known as King Memorial Highway.

During the 1940's, the stones from three other cemeteries in the general area of this cemetery were moved. The cemeteries were: King, Thwing, and Angel.

It was practically impossible to assign lot numbers as the rows were irregular; therefore, this cemetery will be done in row order. Row 1 begins in the northeast corner and the rows were read from north to south.

CHARDON - RIDER

Location: on the Painesville-Ravenna Road (Old St. Rt. 44) about 1 mile north of the Village Square in Chardon. The first drive to the right after the Chardon Middle School is a drive to a development. The cemetery is on the right not far from Ravenna Road. It is easily missed.

The cemetery has been a private family plot until recently. It was much neglected, and various scout groups and interested volunteers have worked to restore it. Maintenance has been assumed by a Veteran's organization. There have been no burials since 1955.

Much of the information comes from The Rider Genealogy & Family History by Benjamin F. RIDER, 1947. The following is a combination of his Index to Graves, Chronological List of Burials, and inscriptions.

two fieldstones close together: Chief CORNPLANTER & Squaw Quoting from an interview with Helen (KESSLER) KONIG, 1981 with Henry BATTLES: "When I was a child, my grandfather, Seth MAPES, used to take me to the cemetery to plant three kernels of corn by those field stones. We would put brush around them to keep the birds away. When the corn came up in 2 or 3 weeks, we would go back and pull the stalks to leave only one stalk in place. There was an Indian Chief and his Squaw buried there." From Henry BATTLES: When questioned about the location, she said to start at the SEARS monument and take 12 long steps directly south. When this was done, there were no stones there. I dug down and found the stones. They were very close together, and tradition has it that the Indians were buried standing up."

CORNPLANTER was a Seneca Indian chief who was born in 1740 and died in 1836. He very well could have been buried here.

There is considerable space for additional lots and burials on the east side. This is the area where the horses were tied during the graveside services.

Extending from the northeast corner is a mourning area where family and friends gathered after the service.

CHESTER TOWNSHIP
JACKSON BURIAL GROUND

Location: on the east side of Chillicothe Road (Rt. 306), approximately 150 yards south of Mulberry Rd. It is in a grove of trees 30 feet from the road on property presently (1983) owned by Luria Excavating. The entrance to Omark-Tarpley 11711 Chillicothe Rd. is just north of the stones.

At one time, there were several stones that are now missing; at least there are five bases which do not fit any of the stones in evidence.

CHESTER - OLD SETTLEMENT

Location: on the south side of Mayfield Road (Rt. 322) between Sperry Road and Kenyon Drive. There are no records, and there have been no burials for many years.

It was impossible to reconcile the Official Project Map with 1983 actuality. Accordingly, the cemetery was divided into 21 rows with Row 1 at the west side.

Location: at 9448 Mayfield Rd., approximately 1½ miles east of Chesterland. The stones are in the walkways in the greenhouse. One is duplicated in the Old Settlement Cemetery which is nearby, and all may have been moved from there. GEAUGA COUNTY INFIRMARY
PLEASANT HILL HOME
CLARIDON TOWNSHIP

Location: on Aquilla Road, about two miles south of Mayfield Road (U.S. 322). The Infirmary buildings are on the east side, and the cemetery is across the road. The stones have only a number.

The Infirmary was established in 1839, but the only record extant is a large ledger which apparently was started about 1910. The columns are headed:

Name	Sex & Age	Admitted from	date	Native of	Died/Discharged	Additional Information

For the purpose of this volume, only those buried in Geauga County will be given as:

Name	Admitted/Age	Died	Stone #/Township

The townships are abbreviated as follows:

Auburn - AU
Bainbridge - BA
Burton - BU
Chardon - CH
Chester - CS
Claridon - CL for other Claridon cemeteries
Hambden - HA
Huntsburg - HU
Middlefield - MI
Montville - MO
Munson - MU
Newbury - NE
Parkman - PA
Russell - RU
Thompson - TH
Troy - TR

In those instances where the burial place is not given, the symbol ng will be used, followed by the township from where the person was admitted.

The last burial in the Infirmary Cemetery took place in 1976. The procedure now is that the burial is the responsibility of the township if there is no family or other source of funds.

GEAUGA COUNTY INFIRMARY
PLEASANT HILL HOME

The first number in the sequence of stones at the Infirmary Cemetery is #93. Two other numbers, #63 & 72, were assigned to Civil War veterans. In an effort to identify the missing numbers, the Record of Deaths Vols. I & II, at the Probate Court, was studied. The following is a listing of deaths at the Infirmary for the period of 1867 - 1908. No record exists for the period of 1839 to 1867.

VAULT RECORD

In the spring of 1879, a vault was built in the cemetery at Claridon Center. A ledger, in the possession of the township clerk, gives the use of the vault from 1881 through April 1923. If the vault was used after 1923, there is no record. It has not been used to hold bodies since 1959, at least.

Only those bodies moved to other townships or those with location unknown will be listed here:

The following persons were listed in Vol. 7. At that time, they could not be matched to any location in Hambden Cemetery. The list will be repeated and will include any other information that has come to light since 1979.

SISSON CEMETERY

"On 27 Oct 1973, the Hambden Township Trustees dedicated the restored pioneer cemetery with a Barre gray granite obelisk denoting for eternity the old Sisson Corners Cemetery." (From: Bondstown Bicentennial Gazette 1801-1976.)

The stones in the cemetery at that time were gathered up and stored in the vault at the Center. There are undoubtedly many more burials than are indicated on the monument. Conspicious by their absence are members of the

HAMBDEN TOWNSHIP
SISSON CEMETERY

PEASE and BOND families who settled in the area around this cemetery.

Location: on Claridon-Troy Road which becomes Sisson Road north of State Rt. 608 or Old State Road. The cemetery is on the east side of Claridon-Troy Rd. about ½ mile south of State 608. This is the southwest corner of the township and was settled first because of an abundance of springs.

According to the Pioneer History, the first person to die in the township was Mrs. Betsey COWEE, wife of Andrew and daughter of Joseph BOND in 1806.

From the time of settlement to 1 Jan 1875, there were 538 deaths. Since the first interment number in 1875 is #450, about one hundred have no records.

At the time the cemetery was read in 1925, "No stones standing, all covered by weeds and thorn bush and broken in many pieces." Any information from 1925 not included on the obelisk will be in parentheses. The word "died" has been omitted on the obelisk.

HUNTSBURG CENTER CEMETERY

Location: on the south side of Mayfield Road (Rt. #322) and about ¼ mile west of the intersection of Routes 528 and 322.

The records consisted of maps, both area and individual lots, deeds (carbon copies date from 1942, a deed index for transactions prior to 1942, and Interment ledgers. In the latter, the information from the burial permit is entered under the first letter of the surname.

The cemetery has been divided into the following sections, and the maps have been redrawn to match: OLD-EAST; OLD-WEST; LOWER-EAST; LOWER-WEST; and NEW.

The names that appear after the Lot # or letter are those from the map that are not represented in the inscriptions or other records.

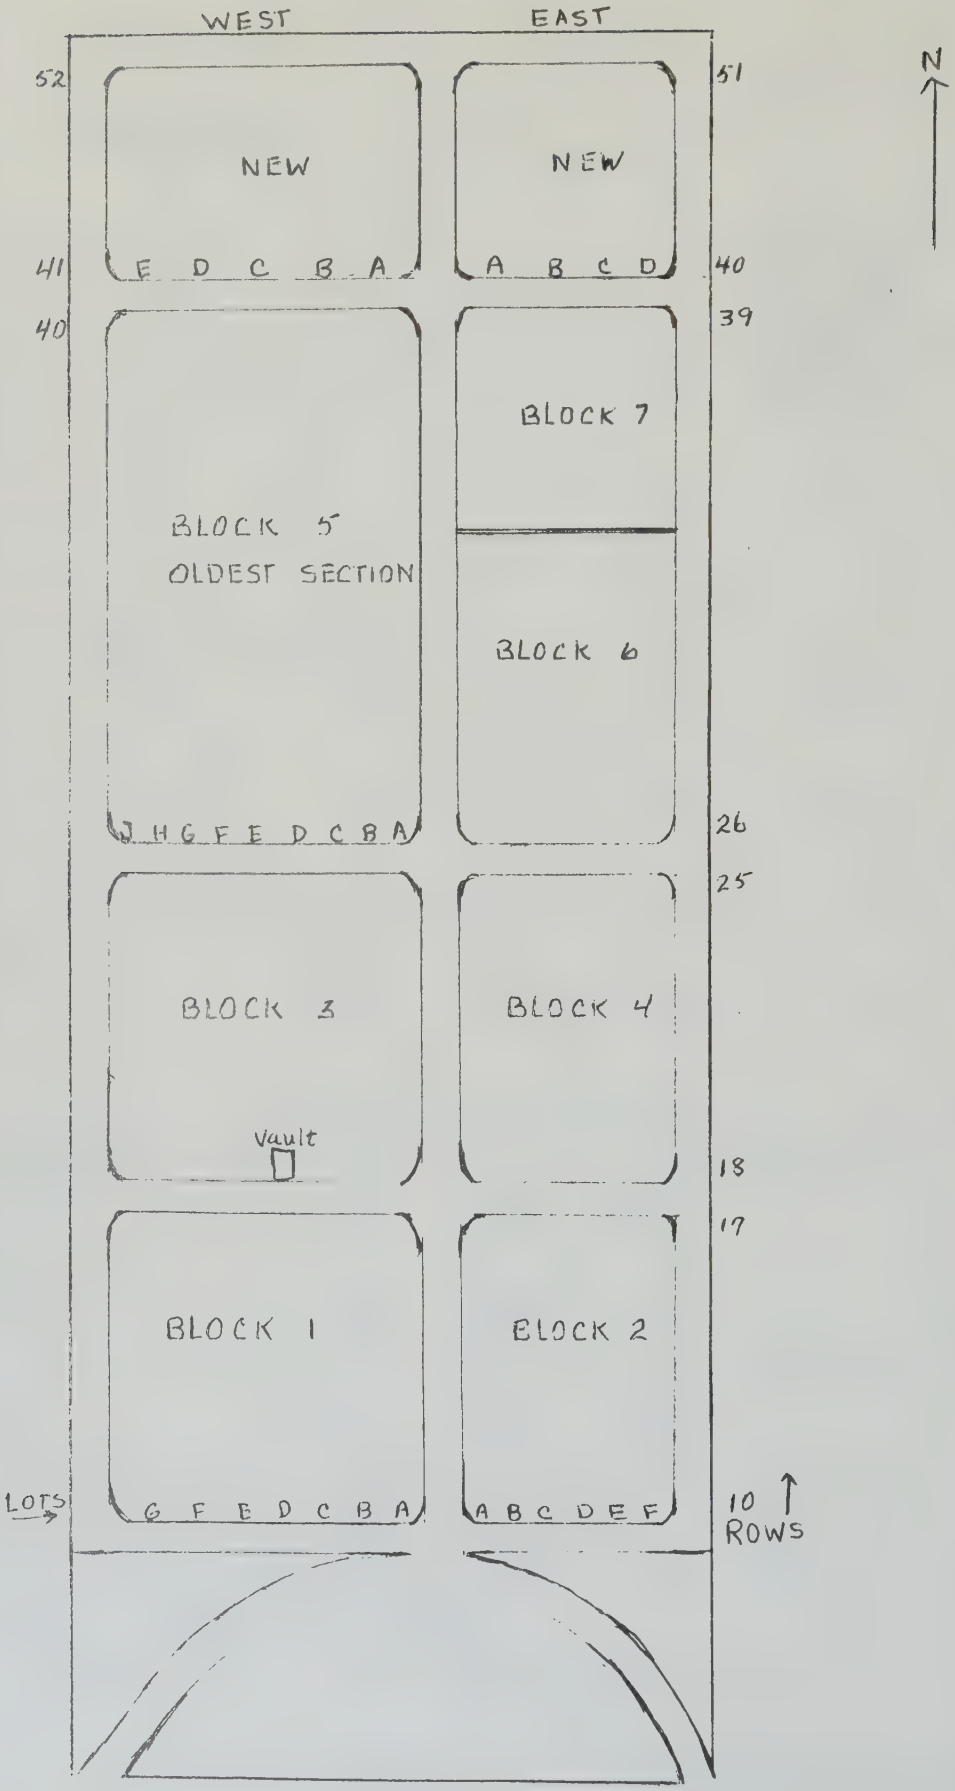
MIDDLEFIELD CEMETERY



MIDDLEFIELD CEMETERY

Location: on the north side of State Route 87, about ½ mile east of the intersection of Routes 87 & 608 (Old State Road). It is maintained by the Township Trustees.

The records consist of deed books, a large map, and an individual lot book with names entered in appropriate graves. The deed number is also entered, but the deeds began in 1931. Burial permits from about 1964 are also extant.

The cemetery is divided into blocks east and west of the center driveway. Each side is divided into rows, by number, and lots, by letter. Most lots on the west side have eight graves. Lots on the east side have either eight or ten graves.

This is the oldest section of the cemetery. An attempt was made to label the map in 1963. The only records are the map and the inscriptions read in 1925. The lots were given letter designations to match the pattern in the rest of the cemetery.

ns - no stone

A page of corrections and additions was found in the 1925 Inscriptions. It referred to BALDWIN'S Cemetery Records. On a visit to the cemetery 25 Oct 1984, the following were noted:

FULLER, Calvin "GAR marker should be Revolution"; his wife has a stone, but there is no record of him buried anywhere in Geauga.

DALY, Mary ae 90 yrs "An old, old stone" could be W33G, completely illegible

KING, Plato "of New Hartford, CT"; per but stone says A Native of Connecticut

HALLIDAY, William "From Washington Co., PA"; if stone says that, it is buried.

There were several stones that had been placed since December 1981. Most burials have been included from burial permits. One stone was noted, however;

MONTVILLE CEMETERY

Location: about 0.3 mile north of U.S. Route 6 on the west side of Rt. 528. It is the only cemetery in Montville Township, although there were undoubtedly burials on private property. The records consist of deeds and Lot owner maps.

There are 3 sections to the older part, but they are not clearly defined. Section 1 begins just north of the middle of the cemetery, and Sections 2 & 3 were added south of Section 1.

This cemetery was located on the east side of Auburn Center Road about 0.5 mile south of Thwing Road and opposite residence of William SPRINGER 11362 Auburn Road. There may still be some stones in the area.

"John R. JUSTUS settled in Chardon in 1817 and went to Munson in 1829, abd set up a tannery on the present farm of S.L. BRAINARD, the only tannery ever in Munson. He married Abigail TOWSLEY in 1818." (From: History of Geauga and Lake Co., OH 1878, Williams and Lippincott)

From notes supplied by Jane BUSHMAN, Munson Township Trustee: Probably also buried at Brainard Cemetery: 2 JUSTUS children; Samantha JUSTUS BRAINARD; Mrs. BRAINARD had two sets of twins; one set died young and believed buried there.

Ezekiel WOODARD was C.P. BRAINARD's adopted father; C.P. BRAINARD m. Polly JUSTUS; Mary JUSTUS m. Josseah HAFF

In 1925, this cemetery was called the HUFF Cemetery and reported in Chardon Township.

Several cemeteries in Munson Township have long since been abandoned. The following information on their location and available information was supplied by Jane BUSHMAN, co-author of TO MUNSON WITH LOVE, 1976.

BREWSTER

Location: on the south side of Bean Road, behind the residence of Dominic MEDINA 12225 Bean Rd.

What stones could be located in barns, walls, etc. were moved to Fowlers Mill Cemetery in 1977. They were placed outside the east fence, behind Section 1.

Perhaps Robert STEPHENSON was also buried on this property.

RIDER

Location: on the east side of Wilson Mills Road and just north of Wearsch Rd. The following inscriptions were copied in 1949. By 1977, only 2 stones existed and were moved to Fowlers Mill and placed with those from Brewster:

VEVERKA WOODS

Location: on the east side of Fowlers Mill Road opposite the residence of James MOSTAR 11226 Fowlers Mill Rd.

2 headstones: One is probably Christopher LANGDON as he was the first recorded death in Munson Township and lived on this property. He d. 1823.

LANGDON was reported in the 1925 reading in the THWING Cemetery in Chardon Township. The Official Project map shows THWING in the general area but some distance west of this location.

MILLER FARM

Location: on the northeast corner of the intersection of Sherman and Auburn Roads, now the residence of Frank FINK. The stones have disappeared, but at one time there was a stone: FOX, Priscilla w/o J. (per Jason)

HAZEN FARM

Location: at the residence of Bernard SCHIKOWSKI 11986 Auburn Road. The following came from a diary by Millicent MILLER:

s PERCY, Thomas
s HAZEN, Caroline m/o Emerson
s GATES, Levi (bro/o Ira)
s HYDE, Levi

In addition, cemeteries have been reported as located on the GLOIN Farm, now the property of A. MELINZ, on the north side of Mulberry Road just west of Hidden Springs Dr.,(The stone for the court house built in 1868 came from this property.)

There are probably several others which have not been identified.

An article in The Times Leader, Chardon, Ohio, Mon., 3 May 1976 tells of the efforts of Jane BUSHMAN and Gloria LEAGAN in researching cemeteries.

"According to Mrs. Bushman, the early settlers of Munson put aside part of their land for use as a family burial ground. 'To Date, we have located two such cemeteries, which have been neglected, vandalized, and, in some cases, we believe, bulldozed over with the coming in of new hoursing developments.' "

"Ideally," commented Mrs. Leagan, "the headstones should be moved to a section of Maple Hill Cemetery, but we would be satisfied if the cemeteries were just maintained in an appropriate manner."

"This cemetery (Huff-Wilson/Brainard) sits in a field that grows almost wildly with myrtle plants. According to Mrs. Leagan, a title search made by the women uncovered information which 'made us believe that when the adjoining land was sold, the cemetery section was exempt. You might say it's unclaimed and abandoned land. Brewster cemetery, which is located atop a hill on Bean Rd. shows the remnants of what was probably once a well-cared for family burial ground. Headstones have either fallen down the hill or were vandalized to the point that they are now in. One stone is broken in half and lies at the bottom of the hill."

"Both women believe there are approximately 40 such cemeteries in the county. .....At this point, Mrs. Bushman has met with Gregg Albert of the county prosecutor's office to seek his legal advice, and with Munson Township Trustees.

Chairman Dave Kick, after checking out some of the legalities of the matter, informed Mrs. Bushman and Mrs. Leagan that in order to move the headstones, a public hearing would have to be held to determine that the cemeteries are, in fact, abandoned. There is also the possibility that permission would have to be secured from the deceased's ancestors, he explained."

Their efforts were successful in having the Brainard and Brewster stones moved, but many who had confiscated stones to use in walls, walks, etc. were reluctant to part with them, even though there was no relationship to the deceased.

From the Indigent Soldier Record:

NEWBURY - MUNN

Location: on the south side of Music Street, just west of Auburn Road. By October 1983, grading and landscaping had been completed to add approximately 2200 grave sites to the cemetery.

Previously, grave sites had been added along the east boundary and partially along the south boundary. These were given lot numbers by the Sexton. The older part of the cemetery was drawn, monuments located, and row letters were given, A through O. For the purpose of easier location, lot numbers 1 through 6 were assigned for this older section.

PARKMAN TOWNSHIP
OLD/LOWER

Location: just south of the intersection of U.S. 422 and State Rts. 528, 168, and 88. S.R. 88 is the only one that actually crosses Rt. 422. Traveling south of the intersection, Rt. 88 immediately turns to the west. The cemetery is ¼ mile south of this turn and on the left side of what is known as the Nelson-Parkman Rd.

The cemetery is well-kept, but there are no records for the burials. The reading was done in rows running north and south.

PARKMAN - OVERLOOK

Location: on the east side of St. Rt. 168 nearly a mile north of the village. The cemetery was started in 1868. The records consist of maps, deeds, and lot records.

There are 8 sections; the oldest sections are 2 and 7. Section 1 is closest to the road, but there are no burials in this section.

The numbering pattern is quite unusual; the rows of stones run north and south, and the rows of stones run east and west.

RUSSELL - RIVERVIEW/BRIAR HILL
RUSSELL - RIVERVIEW/B.H.

Location: on the south side of Fairmount Road and just west of the intersection of Fairmount Road and St. Rt. 306.

The original cemetery was called Briar Hill, and there is a drive about 400' west of Rt. 306 which led to the cemetery and Briar Hill Church. About 1944 the cemetery was extended to the west, and the entrance drive is now near the west line. This is designated in this record as RIVERVIEW/OLD. About 1965, the Trustees purchased land across the road; this is called RIVERVIEW MEMORIAL PARK or RIVERVIEW/MP.

The administration of the cemetery is in the hands of the Russell Cemetery Board, and Mrs. Richard Dryer (Joan) 13941 Watt Rd., Novelty, OH 44072 is the president.

BRIAR HILL MEMORIAL GARDEN

The area just south of the Church is designated as a Memorial Garden. There is a private burial plot just east of the Church. The memorials, stones, etc. have been grouped together under the heading of Memorial Garden.

SOUTH RUSSELL - RARICK

Location: on the south side of Bell St., about 3/4 mile west of the intersection of Bell St. and S.R. 306.

The cemetery is under the jurisdiction of South Russell Village. Because of the difficulty in parking and an inconvenient entrance, there have been no burials for several years.

The original deed is dated 23 Apr 1851. The "New Addition" was added 16 May 1863.

THOMPSON
ST. PATRICK'S CEMETERY

Location: on the northwest corner of the intersection of Sidley and Burrows Roads, about 1.3 miles east of St. Rt. 528. Burrows Road is the boundary between Thompson and Montville Townships.

The parish is about 60 sq. mi. and was established in 1854. A church near the cemetery burned along with many of the cemetery records. As a result, few burials have been made in recent years.

The map does not show lots. The cemetery was read by rows beginning with the west side of the cemetery and reading the stones from north to south.

THOMPSON - WEBSTER

Location: on the east side of Clay Street, about 3/4 to 1 mile north of St. Rt. 166. The property was owned by Harry WEBSTER. The part containing the stones is now owned by Richard BLACK 7721 Clay St., Thompson, OH 44086.

Warner WEBSTER, youngest s/o Harry, was aged 70 in 1979. At that time he reported to Howard MOONEY 637 N. Willow St., Kent, OH 44240, that he last visited the site in 1950 and thought there were about 40 stones. The 1926 reading only reported 17 and had missed 2. Nine stones were found in Spring 1984, but many could have been missed. The stones are simply scattered on a hillside; only one is standing.

Location: about 1000' southwest of the intersection of Leroy Rd. and Thompson Rd. The land was purchased in 1950 by John KISH from a relative of the Bartlett family. It is now owned by Ethel SEMAN, a daughter of John KISH, 6989 Leroy-Thompson Rd. While there have been no burials for many years, the plot is fairly well-kept by Veterans' groups.

While the map appears to be orderly, the rows are not well-defined.

THOMPSON - PHELPS

Location: on the east side of Ledge Road approximately 75 yards south of the intersection of Ledge Road and Thompson Road. To reach it, it is necessary to climb a steep embankment and push through 20' of dense thornapple.

The 1925 reading apparently included the stones with those of Evergreen. Penciled in under THOMPSON 1 mile north and ½ mile west is "½ mile east of Center, PHELPS. It is quite possible there were many more stones in this area.

THOMPSON - EVERGREEN

Location: on the south side of Moseley Road about 0.6 mile west of the intersection of Dewey and Moseley Roads. The Official Project Map calls it SANFORD.

The original record book of the Evergreen Cemetery Association, formed 23 Aug 1860, is extant and has been copied by members of the Lake County Genealogical Society. The Record of Interments begins in 1861 and ends in 1884. Many of the stones were moved to Maple Grove between 1884 and 1926.

The records were matched to the lot map and remaining stones. Some names were simply assigned a lot at Evergreen.

THOMPSON - MOSELEY

The 1874 and 1900 Atlases of Geauga County show a cemetery at the southwest corner of the intersection of Moseley and Madison (St. Rt. 528) Roads. A conversation with Art MOSELEY on 10 Sep 1984: "My dad said that there were stones on that property long ago, but they were all moved." The property was purchased by Noah MOSELEY in 1810 and remained in the family well into the 20th Century. The stones were probably moved before the 1925 Reading.

TROY - PATCH

Location: on the west side of Rapids Road, approximately ¼ mile north of the intersection of Rapids Road and U.S. Rt. #422. Some references call this FOX Cemetery, but there is only one of the name interred. It might be confused with Lower Cemetery in Burton Township; it has also been called FOX Cemetery.

The only records are the sexton's map and the reading of 1925. The cemetery is well-kept, and there seems to be room for many more burials.

TROY - DINTURFF

Location: on the south side of Stafford Road, just east of Snow Road, and on property presently owned by the City of Akron. The "road" into the cemetery lies just to the east of the house on the northeast corner of Snow & Stafford Roads. The road passes the foundations of an old house (a large fireplace is still standing. The cemetery, encircled by a stone fence, lies approximately 40 yards to the south of the foundations, and ten yards west of the drive, in heavy underbrush.

TROY - DINTURFF

Three stones were located during the summer of 1983, but there may be more. While the stones are in Troy Township, the 2 identifiable stones belong to men chronicled in the Auburn section of the 1880 Pioneer History. According to that account, John DINTURFF was the father-in-law of Edward FRAZEE, the husband of Betsey DINTURFF. Betsey and Edward had a daughter Hattie. This may be the Harriet of the third stone.

The 1880 History confirms the information on the stones, adding the information that Edward FRAZEE was accidentally killed on Christmas Day 1857 when his gun discharged while he was hunting.

There are also stones for John DINTURFF, Edward FRAZEE, and Hattie DINTURFF at Shadyside Cemetery at Auburn Corners.

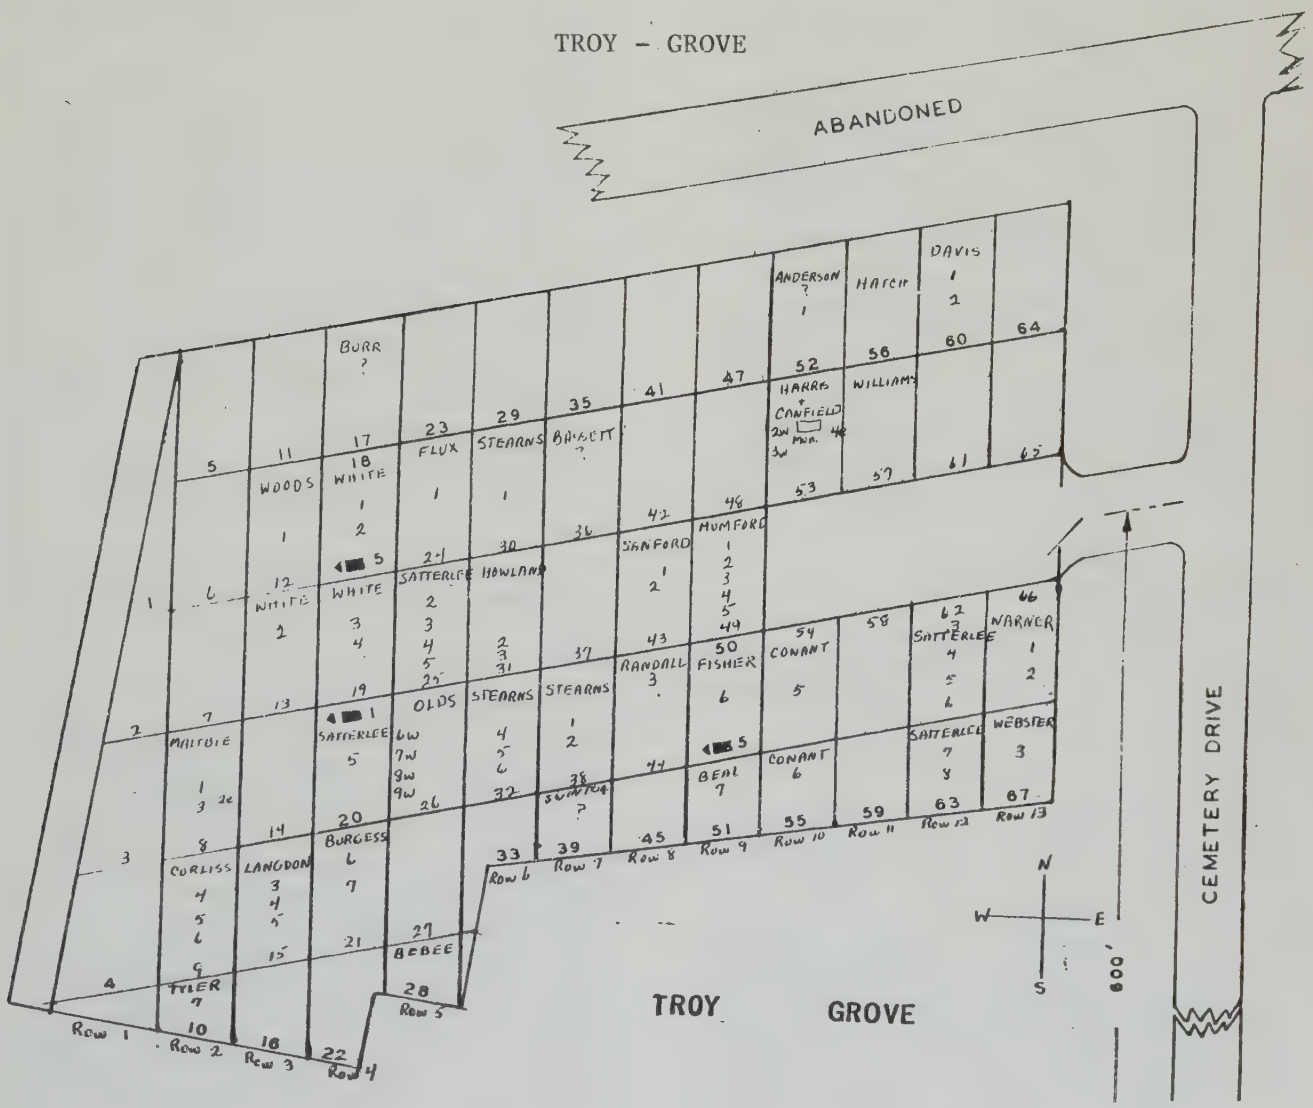
TROY - GROVE



Location: on Lot No. 5, Maple Grove, Troy Township. At one time, Maple Grove was called Grove Post Office. The cemetery is about 700 feet west of Mumford Road, and its access is about 600 feet north of Grove Road. There is a small

sign, GROVE CEMETERY, next to a dirt driveway. The driveway leads to a gate to the cemetery, west of the drive, and continues to a now abandoned road.

There are 13 rows of lots, but not all rows have the same number of lots. Since there were no current maps, lot numbers were assigned according to the location of the stones.
